Paisley Peinforte has moved to Mastodon x
@Rule34Rocks

I blame Stephen of Blois for a great many things, none of which I shall discuss here.... but what I *will* discuss is #Transformers ! It's time once again for more episodes. I'd like to finish Season 3 this weekend, if possible. We continue with "Carnage in C-Minor"

Replying to @Rule34Rocks
I can already tell it's going to be one of *those* episodes. The Decepticons are pulling an "Attack of the Cybermen" and have attached an engine to a comet, which they intend to steer into Metroplex, who, being a Transformer, should be able to just get up and evade. #Transformers

Broadside just... dropped himself on Devastator, crushing him into the ground... and what is wrong with his head?!

Forget Starscream's ghost! That's HUFFER's! Quick someone shoot him in the shoulder again.

Also why is a constructicon fighting alongside them?

The comet was literally destroyed by a Synth wave. And everyone on the planet it came from is autotuned before that was even a thing.

It's hilarious seeing Blaster and Soundwave basically melting at the knees for this musically harmonic planet and culture. #Transformers

Galvatron is actually more stable here... did the events of the last episode have any kind of impact? #Transformers

This #transformers episode is not kind to my ears.

Also, is it just me or is Ultra Magnus usually the one fighting Galvatron instead of Rodimus? That lad knows how to delegate! #Transformers

Other than the simmering Cybertronic Heat™ between Shockwave and Blaster that episode of #Transformers was quite painful, and I am quite glad to be moving on to "The Quintesson Journal"

I haven't touched on it before, but there's a strong mini-arc of the Autobots hosting galactic peace talks.

It's interesting to see that with their war more-or-less done, they are dedicating themselves to a larger cause... even if things don't always go to plan.

#Transformers

1

Hmm. Rodimus is feeling the pressures of leadership and feeling that he can't live up to Optimus. We won't talk about how Ultra Magnus has been doing most of the heavy lifting lately.

It feels like this is a case where the "coming of age" in the #Transformers movie is failing.

Paisley Peinforte has moved to Mastodon ... @Rule34Ro... · Jan 22

Wait. This is SANDSTORM, who we met ages ago. But this is supposed to be his first appearance, on a planet of docile Autobots.

I know it's a children's cartoon but is proper chronological order too much to ask for? #Transformers
