All right. What might be the final stretch for #Transformers depending upon if I can keep my energy up~ we continue with "Call of the Primitives".

(Primitive, they say, but the animation here is already ridiculously good)

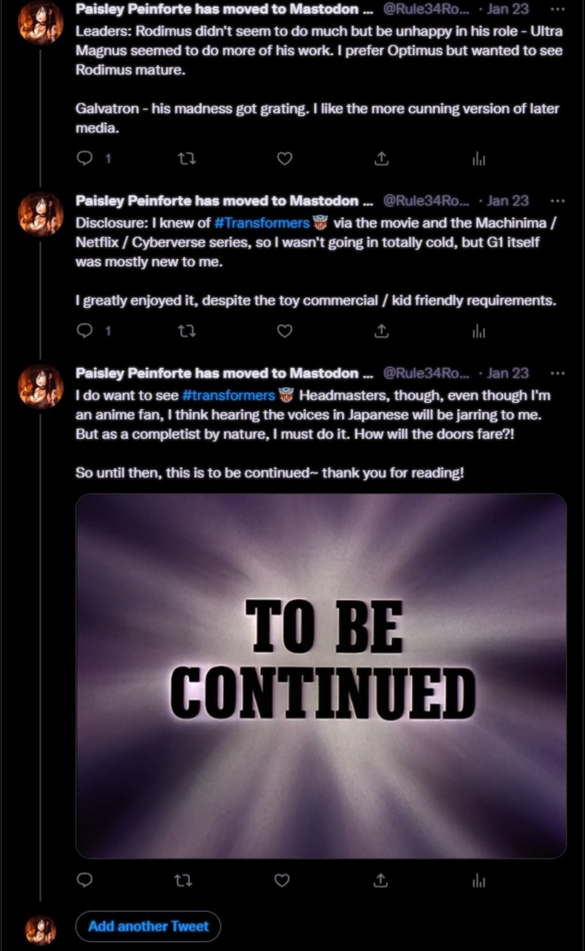
While I like all the new characters (up until season 4 because we got no time to know them at all) I prefer the pre-timeskip #transformers stories better. They seemed to let the characters breathe a bit more, and the Decepticons seemed more unique.

1



Paisley Peinforte has moved to Mastodon ... @Rule34Ro... · Jan 23

Leaders: Rodimus didn't seem to do much but be unhappy in his role - Ultra Magnus seemed to do more of his work. I prefer Optimus but wanted to see Rodimus mature.

Galvatron - his madness got grating. I like the more cunning version of later media.

Paisley Peinforte has moved to Mastodon ... @Rule34Ro... · Jan 23

Disclosure: I knew of #Transformers via the movie and the Machinima / Netflix / Cyberverse series, so I wasn't going in totally cold, but G1 itself was mostly new to me.

I greatly enjoyed it, despite the toy commercial / kid friendly requirements.

Paisley Peinforte has moved to Mastodon ... @Rule34Ro... · Jan 23

I do want to see #transformers Headmasters, though, even though I'm an anime fan, I think hearing the voices in Japanese will be jarring to me. But as a completist by nature, I must do it. How will the doors fare?!

So until then, this is to be continued~ thank you for reading!
