Paisley Peinforte has moved to Mastodon x
@Rule34Rocks

Oh my! As I return to #Transformers I see the next story up is entitled "Starscream's Ghost."

So I guess it's not just Japanese media that loves to spoil plot developments in the episode titles.

Replying to @Rule34Rocks

Galvatron has it out for a new bot called "Octane", who seems to be a standin for Blitzwing, given what Galvatron accuses him of and the fact that as a Decepticon he is making runs to Autobot-run Cybertron.

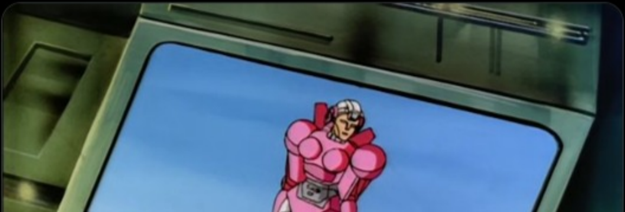
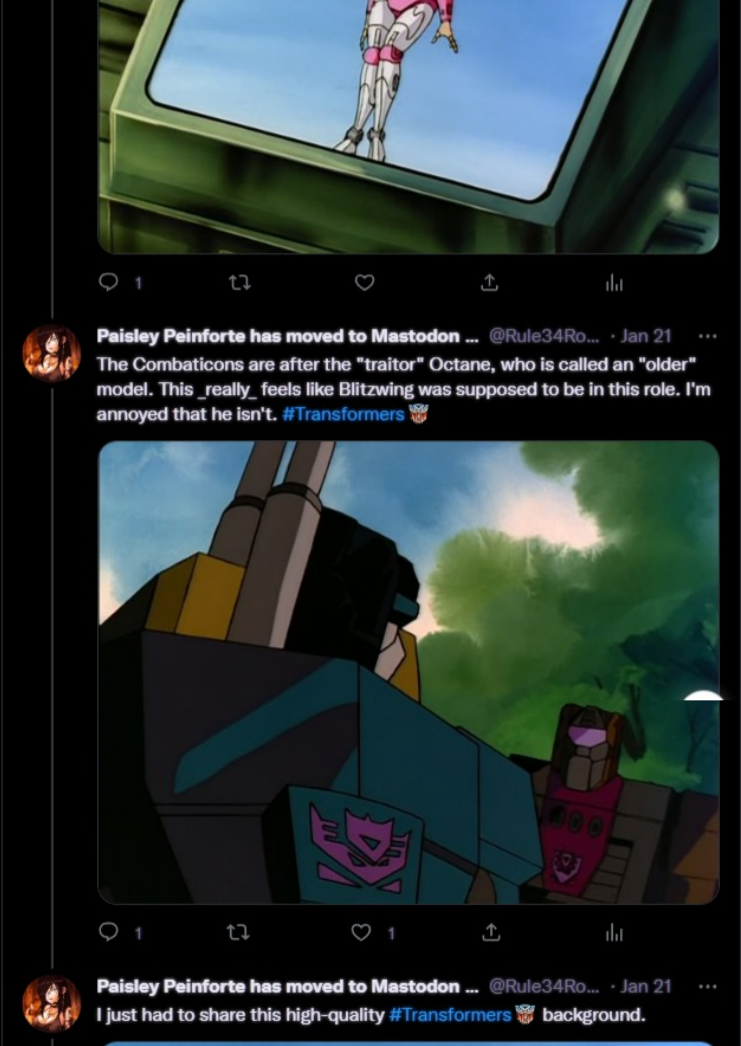
Octane ogles a bot that looks a lot like Arcee, but who has has gone a bit Kardashian.

#Transformers





Paisley Peinforte has moved to Mastodon ... @Rule34Ro... · Jan 21

The Combaticons are after the "traitor" Octane, who is called an "older" model. This _really_ feels like Blitzwing was supposed to be in this role. I'm annoyed that he isn't. #Transformers

I just had to share this high-quality #Transformers background.

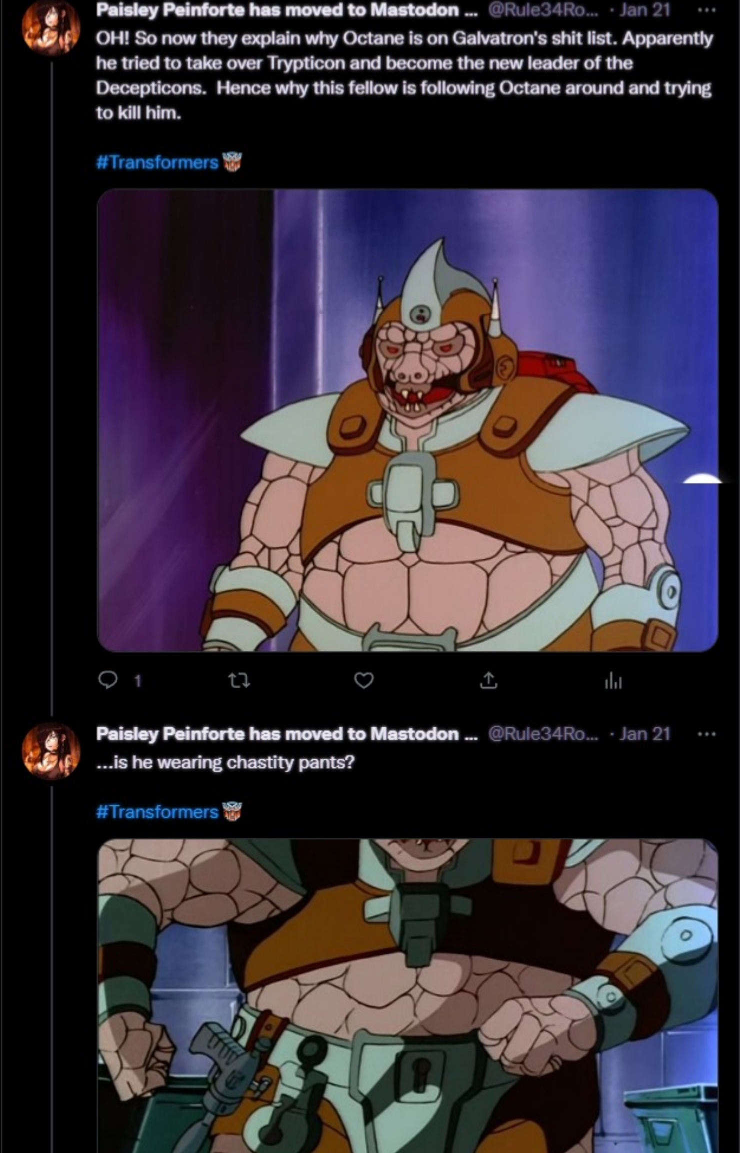
I almost want to read that sign on the right as "#Transformers Diner HELL"

1



Paisley Peinforte has moved to Mastodon ... @Rule34Ro... · Jan 21

OH! So now they explain why Octane is on Galvatron's shit list. Apparently he tried to take over Trypticon and become the new leader of the Decepticons. Hence why this fellow is following Octane around and trying to kill him.

#Transformers

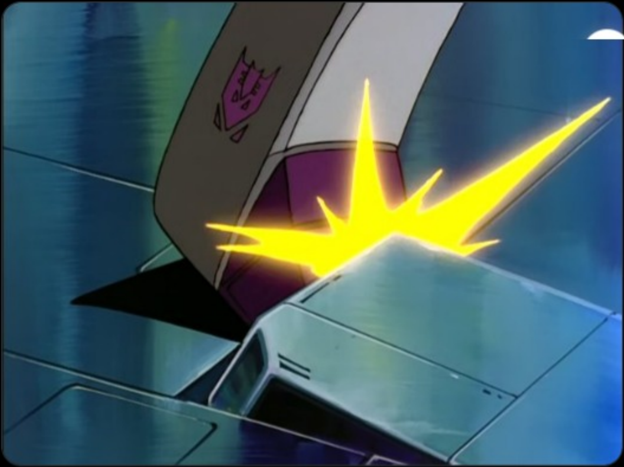
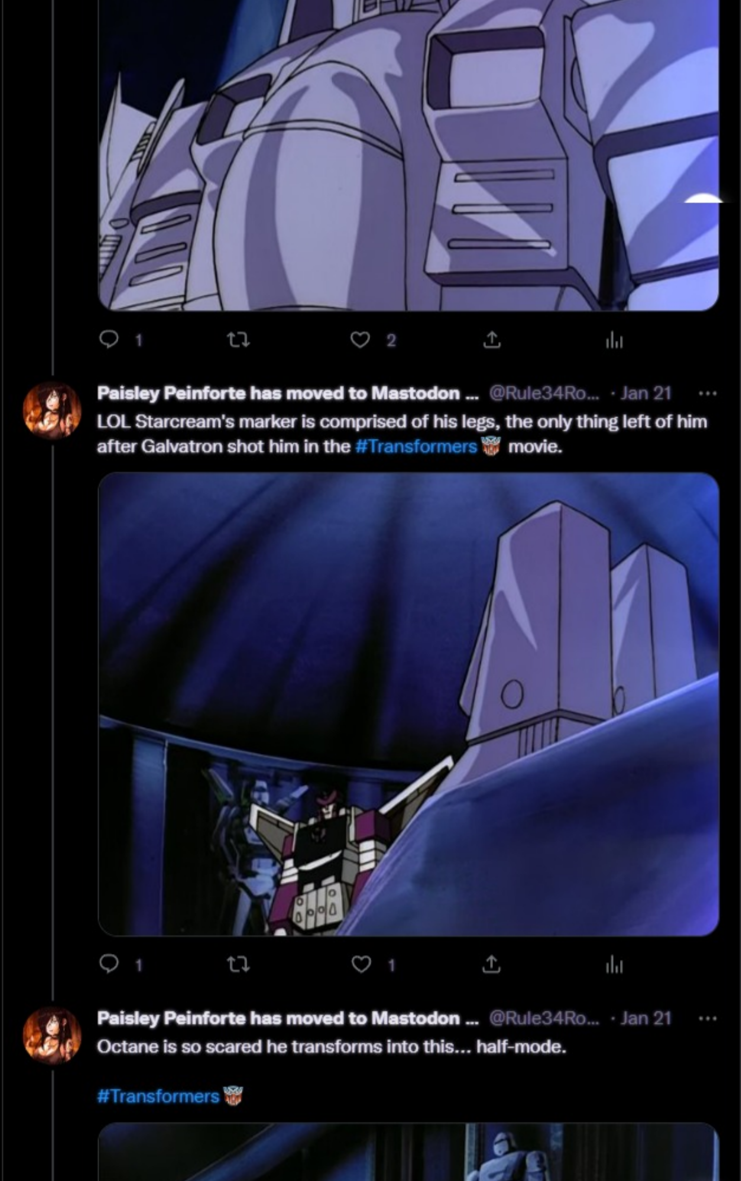
Octane is constantly tripping over things. #Transformers



1 1

Paisley Peinforte has moved to Mastodon ... @Rule34Ro... · Jan 21

Fleeing assassins, Octane falls into an underhall of Cybertron, where, in a replay of "Dark Awakening" he finds himself in a #Transformers crypt, this time a Decepticon one, presumably made while they still had control of Cybertron in the film...



Paisley Peinforte has moved to Mastodon ... @Rule34Ro... · Jan 21

LOL Starcream's marker is comprised of his legs, the only thing left of him after Galvatron shot him in the #Transformers movie.

Paisley Peinforte has moved to Mastodon ... @Rule34Ro... · Jan 21

Octane is so scared he transforms into this... half-mode.

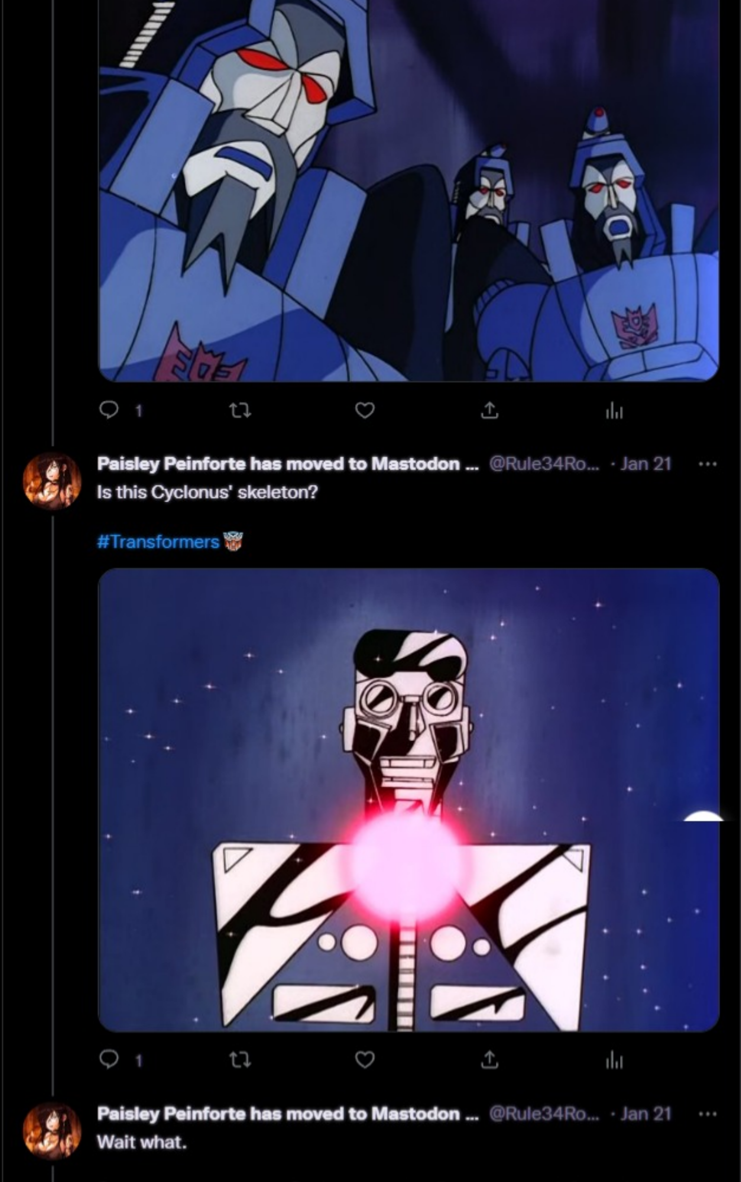
This is why I hate the whole "Scourge and the Sweeps" thing.

In the earlier seasons there would be a variety of characters here, but yo don't know who is who here and it makes everything feel blander for it.

You're also missing out on merchandising more #transformers !



Paisley Peinforte has moved to Mastodon ... @Rule34Ro... · Jan 21

Is this Cyclonus' skeleton?

#Transformers

Paisley Peinforte has moved to Mastodon ... @Rule34Ro... · Jan 21

Wait what.

Starscream possesses Cyclonus, pretending to extract information on the Autobots from Octane. Cut to Galvatron suddenly fighting Rodimus (I suppose it was supposed to be an ambush?) and then Galavtron coming back damaged.

It's an odd jump. #Transformers

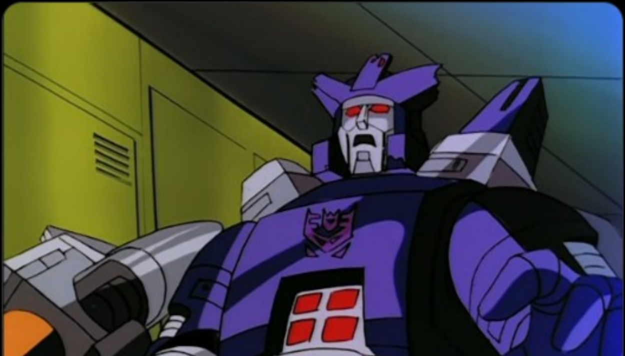
Oh god this face.

#Transformers



1

Paisley Peinforte has moved to Mastodon ... @Rule34Ro... · Jan 21

It just... ends?

This #transformers episode feels like it suffered from many cuts and is half a story. Rather like the introduction of the Ruth Doctor in #DoctorWho.

Anyway, onto the next story, "Thief in the Night".

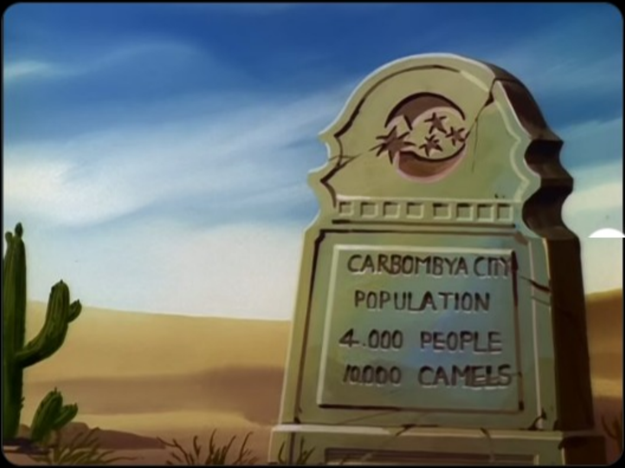
I can't blame Casey Kasem quitting #Transformers over that shite.

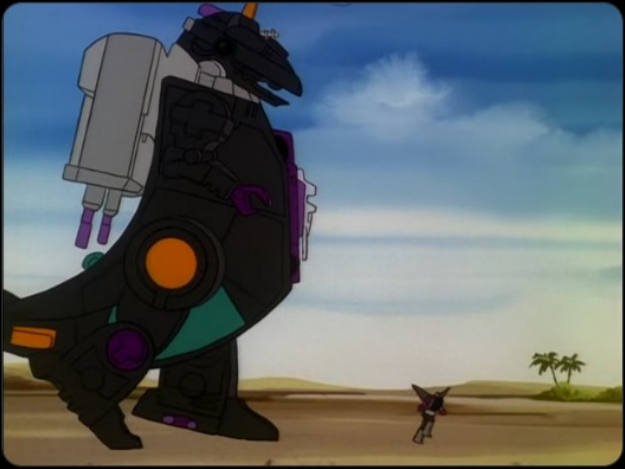


1

Paisley Peinforte has moved to Mastodon ... @Rule34Ro... · Jan 21 ···

So Octane is here with Trypticon?

Is this #Transformers episode out of order?



1 1

Paisley Peinforte has moved to Mastodon ... @Rule34Ro... · Jan 21

So Qadaffi-lite, who presumably was using Trypticon for something now wants to betray him and Octane.

Yes. Betray the MECHANICAL ALIEN KAIJU THE SIZE OF A CITY.

This is wise.

1

So here Octane hatches his plot to fuel up on Carbombya's super-Energon and take over the Decepticons. I'm guessing this episode and Starscream's Ghost were switched? #Transformers

I do like that the Combaticons are getting a LOT of use as, well, the combat troops that they are. #Transformers of this era doesn't always seem to be that consistent.
